Research:

- 2016 Cizenski J, Muhlbauer A, Xu H, and Helm TN. Cytokeratin profiles in Merkel cell carcinoma. (Dr. Cizenski was a visiting resident from Baylor supported by an ASDP research grant). The project was selected for the 2nd Prize Resident Podium Presentation. Merkel Cell Carcinoma: A Comparison of Different Immunohistochemical Marker Studies Useful in Diagnosis . Cizenski J, Muhlbauer A, Xu H, Helm T. Texas Dermatological Society Annual Meeting, San Antonio, TX Sept 2016.
- 2004 Cheney RT, Feldman MP, Hyland A, Helm T, Ferrone S. Antigen processing and HLA Class I expression in Nevi and Malignant Melanoma. (Presented in Sydney by Dr. Cheney 10/04).
- 1989 Helm TN, Bergfeld WF, Yen-Lieberman B. A study of alopecia areata and its possible correlation with retrovirus infection. Approved by the Cleveland Clinic Foundation, Internal Review Board for Research

- 1985 Studies methods of quantitating serum nonprotein thiol levels in an effort to use glutathione levels as an index of severity in rheumatoid arthritis. This research was supported by the National Institute of health and carried out at the Albany Medical College with the guidance of immunologist DA Lawrence, Ph.D.
- 1984 Study of the sensitivity and specificity of the Crithidia lucilliae anti-DNA antibody test using the sera of patients with systemic lupus erythematosus. This research was carried out at the State University of New York at Buffalo under the guidance of Ernst H. Beutner, Ph.D.
- 1981 Received commendation for outstanding performances for two abstracts presented in the student seminar at Roswell Park Memorial Institute 8/1/80:
1. "Comparing the blood parameters of runners with those of non-runners"
 2. "The effects of long-term plasmapheresis on blood parameters"
